PROFESSIONAL SUMMARY

Computer Science Engineering graduate with CGPA 8.39 and hands-on knowledge of Python, SQL, MySQL, HTML, CSS, JavaScript, NumPy, and Pandas. Completed Python Full Stack Development training with practical exposure to web development, database handling, debugging, and problem solving. Seeking an entry-level Software Developer role to contribute to real-world applications and grow as a software professional.

TECHNICAL SKILLS

Languages: Python,SQL
Web Technologies: HTML, CSS, JavaScript
Libraries: NumPy, Pandas,Seaborn,Matplotlib
Core Concepts: OOP, Data Structures, Problem Solving
Operating System: Windows,Linux(Basics)
Development: Python Full Stack Development, Web Application Development
Tools: VS Code,Google colab
Other Tools: MS Word,MS PowerPoint

EXPERIENCE

Python Intern December 2025 - January 2026
Srishti Innovatives, Thiruvananthapuram

- Applied Python programming concepts including variables, loops, functions, and data structures through practical coding tasks.
- Strengthened programming logic, debugging, and problem-solving skills through application-oriented exercises.
- Applied Python concepts including variables,loops,functions, and data structures.

Python Full Stack Development Trainee June 2026 – Present
QSpiders, Kochi

- Developing database-driven applications using Python, SQL, HTML, CSS, and JavaScript.
- Practicing JavaScript fundamentals including DOM manipulation and event handling.
- Performing data cleaning ,EDA, and visualization using Pandas,Numpy and Matplotab while solving practical programming problems.
- Building web-based applications and working with MySQL for database management.

PROJECTS

Underwater Rover with Rescue Mechanism

- Developed a remotely operated underwater rover using Python and ESP32 for navigation and system control.
- Integrated sensors, Bluetooth communication, and mobile gesture controls for remote operation.
- Implemented a robotic arm for object retrieval and rescue operations with real-time video monitoring.

Smart Electric Fence using IoT

- Developed an IoT-based intrusion detection and security monitoring system.
- Implemented cloud connectivity and real-time alerts for security breach detection.
- Enabled remote monitoring through a web/mobile interface with instant notifications.

EDUCATION

B.Tech in Computer Science Engineering 2022 – 2026
Travancore Engineering College, Kollam, Kerala **CGPA: 8.39**
Higher Secondary 2019 – 2021
St. Mary's HSS, Kottarakara, Kollam **97.4%**

CERTIFICATIONS

- Front-End and Web Development (Basics) – IBM, Coursera
- Introduction to Computers, Operating Systems, and Security – Microsoft, Coursera
- Enhancement in Soft Skills – IIT Kanpur, NPTEL
